Fundraising

Hello and welcome to the second 'Trains For Kids With Cancer' fundraising day to help the 'Kids With Cancer Foundation Australia'.

It was back in 2016 that I first had the idea to raise funds for the important work this association does. I felt it was a great cause, one I am very passionate about, and one worthy of any help I was able to give.

The foundation has no management fees, salaries or running costs, meaning that 100% worth of your donations goes to the families who are most in need of our support.

For further information please check out their website.

<https://www.kidswithcancer.org.au>

The previous year's event was only meant to be a one off. However, I never expected it to be the great success it was and that it would lead to another year later. With your support, who knows what we can achieve. We are currently looking at many exciting ideas for the future.

In 2022 we conducted a heritage bus and train ride to the 'NSW Rail Museum' at Thirlmere, while this year it is heritage buses to the 'Sydney Tramway Museum' at Loftus.

Who knows what 2024 will bring.

Thank you for supporting our event.

David Xuereb

It is hard to believe that, what started out as a brief conversation with David Xuereb, has now reached a seventh year of important fundraising work for the 'Kids With Cancer Association Australia'.

As someone who devotes his life to researching, publishing and promoting the railway hobby/history in Australia and the Philippines, it was something well removed from what I would normally do.

However, David was passionate for the project and who was I to reject his plea for help with the design and media work. This magazine is just one small part of the massive effort put into a wonderful cause.

I am extremely proud of what we have managed to achieve over the four years (Covid meant an extended break from it all) we have done this. All our work has seen us donate well over \$40,000 so far, and we hope to be able to go much further.

Not sure what the upcoming years hold, but I have been in a number of discussions with people, with a view to having a number of different events take place. Stay tuned to our website and Facebook page for further updates as I am sure it will be great.

Thank you for helping us to help them.

Trains For Kids With Cancer

Don't Miss Out On Our Exciting Upcoming Events.

<https://trainsforkidswithcancer.wordpress.com/>

Kids with Cancer Foundation

The 'Kids with Cancer Foundation' is marking a major milestone – 25 years of supporting sick children across Australia – and would like to thank all the generous supporters who have made this possible. Since 1998, the Foundation has raised \$24.1 million to support the work of hospitals and help families of children battling cancer.

The 'Kids With Cancer Foundation' has donated a total of \$7.7 million to Westmead Children's Hospital, and is the largest donor to the Sydney Children's Hospital, giving a combined \$8.3 million to the Kids Cancer Centre, the Sydney Cord and Marrow Transplant Unit and Kids Cancer Research Centre.

The Foundation currently funds a full-time social worker for Bear Cottage in Sydney, one of only three children's hospices in the country, with a total donation so far of \$700,000.

In 2005, the Foundation enabled the construction of the Children's Cancer Centre at Monash Children's Hospital in Victoria, with a donation of \$1.57 million, the largest ever one-off donation given to Southern Health at the time. In South Australia, the Foundation supports the salary of the Oncology Fellows position at the Women & Children's Hospital.

The charity also provides around \$35,000.00 per month in family financial assistance each year. This support is available through hospital social workers, and is designed to help struggling families pay for everything from food to bills and funeral costs. The Foundation helped its 2,000th family in May.

The Castle Hill-based Foundation is an independent charity, without affiliation to any particular hospital. It runs regular art union lotteries and raffles at \$2 a ticket to raise funds.

The raffles provide the bulk of the hospital funding and cover the Foundation's admin costs. This enables 100% of direct donations to go to supporting children.

Raffle Sponsors

Auscision is excited to finally announce the NSW Freight Rail 90 Class Locomotive Ready-to-Run in HO Scale. We initially started this project back in 2015 with a planned release date of 2018, but decided to hold off until we had delivered a few more different 100T & 120T Coal Hoppers to run behind the 90 Class. Being restricted to Newcastle and the Hunter Valley the 90 Class will look perfect pulling a long rake of Auscision 100T NHVF & NHFF Coal Hoppers or 120T NHRH & NHYH Coal Hoppers. 3 locomotive numbers will be available in each of the 4 different liveries: 1994 Canadian built locos in Freight Rail (as delivered without sound defectors), FreightCorp Patch Job, Pacific National Patch Job & 2005 Australian EDI assembled locos in Pacific National's current blue & yellow livery. All of our standard Auscision locomotive features can be found on the 90 Class along with the option for factory fitted DCC sound. DCC models will feature an ESU LokSound 5 sound decoder with twin cube speakers and prototypically recorded EMU 16-710GSA engine sounds and Nathan PS air horns. Visit our website for further information.

- MODEL FEATURES**
- 1000 Watt DC Ready-to-Run
 - 12 Pin audio channel DCC decoder
 - All wheel drive axle pickup
 - 1000 Watt DC Ready-to-Run
 - 12 Pin audio channel DCC decoder
 - All wheel drive axle pickup
 - 1000 Watt DC Ready-to-Run
 - 12 Pin audio channel DCC decoder
 - All wheel drive axle pickup

- DCC SOUND FEATURES**
- DCC LokSound 5 DCC decoder
 - Australian standard locomotive with 12 pin audio channel & 5 pin DCC decoder
 - Prototypically recorded loco sound
 - 1000 Watt DC Ready-to-Run
 - 12 Pin audio channel DCC decoder
 - All wheel drive axle pickup
 - 1000 Watt DC Ready-to-Run
 - 12 Pin audio channel DCC decoder
 - All wheel drive axle pickup
